HERITAGE FLUSH SASH

HERITAGE WINDOW COLLECTION

BY DECEUNINCK

A+

Heritage flush sash looks great in any surrounding; modern townhouse or country cottage, its subtle charm and elegance transforms the building like no other.

With its flush external contours, something considered more in keeping on period

properties, satisfying the requirements of your local conservation officer just got a whole lot easier, especially when you add the all important Georgian bar for that archetypal chocolate box house you've always dreamed of.

Heritage Flush Sash

Weather Performance

Internally we've adopted our tried and tested high performance multifunctional weatherseal. With a continuous seal welded at the corners, air tightness is always maintained meaning no loss of comfort inside the home.

Externally a new dual seal combination maximises water tightness and conceals hardware.

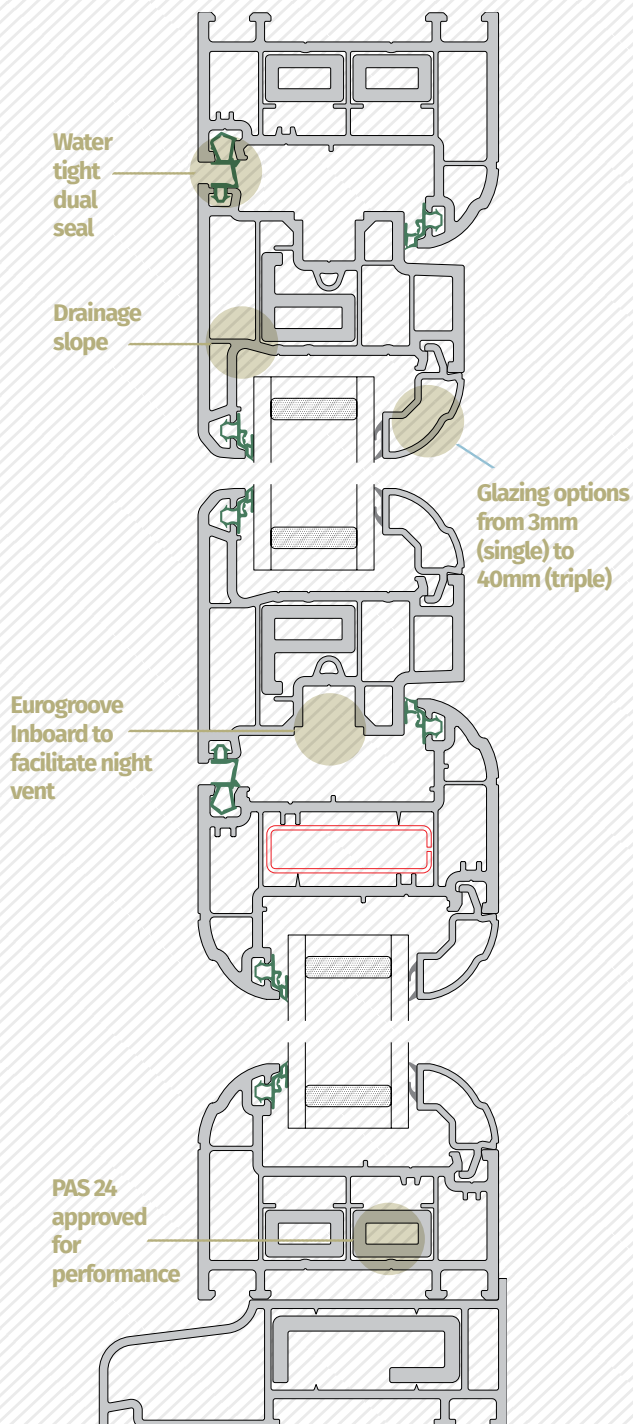

An integral drainage slope encourages water to drain away quickly and easily.

Security

The Deceuninck flush sash had the homeowner in mind during its design, so unlike others there's no compromise when it comes to things like having a night vent locking position. The bespoke locking keep also means full hardware compatibility, giving the window unrivalled security for a product of this type... achieving PAS24 just got a whole lot easier.

Insulation

With its core designed around Heritage 2800, the insulating properties of flush sash are even more impressive. A double glazed window U value of just 1.2 epitomises this market leading product.

Weather test results
