SP Trade Frames are an innovative new trade centre with a simple ethos - to supply the trade customer with Windows, Doors and Conservatories at a realistic price - on time and in full.

As a business we have many years experience in the industry, both from the installation side and also the fabrication side.

TRIMS AND ACCESSORIES

After speaking to our customers we are now offering an extensive range of trims, silicones and accessories so we can supply all your requirements for every job.

Silicone	Trims
Foam	Solvent
Cleaners	Caulk
Superglue	Trim Tape
Masking Tape	
SDS Drill bits	
Baypole screws	
and much much more.....	

WHY SP TRADE FRAMES?

OUR PROMISE TO YOU – THE INSTALLER

We will supply quotes within 4 hours
We will supply a quality product on time and in full
We will offer full customer support
We will offer marketing advice and support
We will offer a delivery service at a time to suit your installation
We will offer help and advice on all aspects of the window industry
We will endeavour to supply whatever products you require – at the right price

RECYCLING

At SP Trade Frames we offer a full recycling service for all your post consumer waste.

Your frames and general waste can be disposed of using our on site skip services. All we ask is that all frames are deglazed and glass and PVC are put in the correct skips.

ASK YOURSELF THESE SIMPLE QUESTIONS ABOUT YOUR CURRENT SUPPLIER

- ◆ Do they provide a full 10 year guarantee?
- ◆ Is their profile Grade A - minimum 3mm?
- ◆ Does their profile offer positive drainage?
- ◆ Are their frames manufactured to BS7412?
- ◆ Do their frames have shootbolts and hinge guards as standard?
- ◆ Are frames supplied with egress hinges?
- ◆ Do they offer a sculptured and chamfered system?
- ◆ Are their windows made from lead free PVCu?
- ◆ Are their windows A Rated as standard?
- ◆ Do they offer a recycling service?
- ◆ Can they supply you with Composite doors?
- ◆ Do they offer a full range of Aluminium?
- ◆ Can they manufacture flush sash?
- ◆ Do they provide full Marketing support?
- ◆ Will they manufacture mechanically jointed doors?
- ◆ Will they endeavour to source whatever products you require?

In short the answer to all these questions at SP Trade Frames is yes. We also pride ourselves on researching and finding new products to add to our already extensive range.

WINDOWS CASEMENT

In order to cater for the diverse mix of property styles and consumer preferences, SP Trade Frames range of windows and doors are available in a variety of styles and profile options, including Halo, Linar, Dekeunink, Kommerling or Rehau - the choice is yours

Chamfered

Sculptured

Style and Versatility

Colour options now extend far beyond traditional white windows. The SP Trade range offers you so much more in terms of style and finish that you should never need to compromise and we can guarantee we will have a finish to suit any home.

Choose from White, Gold, Chrome, Satin, Graphite and Black locking handles

FRENCH & TILT AND TURN

Security

The window supplied by SP Trade Frames has been refined and designed to protect the home and provide total reassurance and peace of mind.

The locking technology on every casement, french or tilt and turn window incorporates 12 security features, dependant on the window size.

Steel Shoot Bolts

Interlocking Anti-jimmy Claws

Tilt & Turn Windows

Key Locking Handles

Collared Cams

French Windows

A total of 12 locks, in all four directions

2 x steel shoot bolts

4 x central collared cams

2 x high security hinges with penny-slot easy-clean facility

4 x unique anti-jimmy claws

Window Energy Ratings

Current Building Regulations now state that all new windows must have a minimum U Value of 1.4 or alternatively be B Rated or better. All SP Trade Frames windows are supplied A Rated as standard with a minimum U Value of 1.4. This ensures that we supply the most energy efficient windows available. In simple terms, Energy Rated Windows improve solar heat gain, reduce thermal losses and reduce air losses. This results in an energy efficient window that will save money on heating bills, and will help reduce harmful CO2 emissions.

DOORS

RESIDENTIAL

Choosing the right entrance door for any home is essential, the front door creates the first impression and the all important kerb appeal.

Certain properties suit a particular style of door, whether it be traditional or contemporary, the SP Trade Frames range will have a door to suit any property. Our doors give endless style and colour choices, so we guarantee whatever the customers own personal taste we can supply the door of their choice.

The SP Trade Frames standard range of doors use a combination of glass and door panels to create the entrance to the home.

For colour options and hardware finishes see Page 4.

Standard PVCu door with midrail and transom

Door Security

SP Trade Frames - 12/14 point locking system

- 2 x top and bottom shootbolts
- 3 x outer / inner facing hook locks
- 2 x dead locks
- 1 x centre locking latch
- 4/6 x roller cams
- 3* anti-snap cylinder

FRENCH & SLIDING PATIO DOORS

French Doors

SP Trade Frames French doors are fitted with suited handles and locking cylinders to both doors, and include the same multi-point lock as fitted to single doors, with the addition of shootbolt locking to the slave door.

Sliding Patio Doors

Large glass surface areas such as sliding patio doors will help to bring in more light and provide that contemporary spacious feel. These are particularly suited to rooms restricted in size or space with the doors sliding horizontally. Security is covered with opposing hook locks, internal / external locking, aluminium inter-lock section and anti lift device.

In addition to the standard range of doors SP Trade Frames also offer a range of engineered doors which come in a huge variety of designs and also an extensive range of composite doors - See pages 12-15.

WINDOWS VERTICAL SLIDING

Modern UPVC vertical sliding sash windows have been developed as an authentic replacement for traditional timber sash windows. Unlike timber windows the modern UPVC equivalent reduces maintenance to a minimum and with precisely tensioned balances ensures smooth operation.

Not only functional and space saving with the windows opening vertically but also elegant in design with numerous period features. In addition to the vertical movement both sashes are able to tilt inwards enabling the outside surface to be cleaned.

Available in White, White Woodgrain, Cream, Black, Golden Oak and Rosewood as standard - with other colours on request.

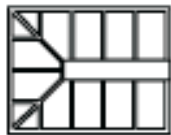

CONSERVATORIES

Add Style to your home

Whatever the requirements for improving the home the SP Trade Frames range of conservatories is sure to inspire.

With a choice of styles, colours, sizes and doors we are sure that we can provide a room to transform your property.

HERITAGE WINDOWS

As the name suggests, the Heritage Collection is a range of elegant windows that are packed with the characteristics and charm of period timber windows. Less obvious perhaps is that every window and door shown throughout this brochure is manufactured, not with timber but using a specialist range of advanced PVC-u profiles. Indeed, the Flush Sash mechanical window is assembled using traditional joinery techniques.

Rebated Sash

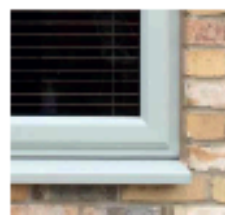

Flush Sash

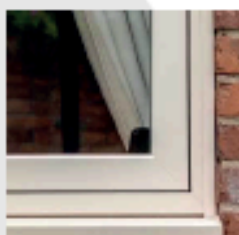

Heritage with Rebated Sash

Showing bevelled putty lines externally offering the picture frame effect and an elegant White Woodgrain ovolo sculptured finish inside.

Heritage with Flush Sash

Showing optional bevelled putty line Georgian Bars. The Flush Sash remains in line with the outer frame externally. White Woodgrain ovolo sculptured finish inside.

Heritage with Flush Sash with mechanical joints

Engineered using traditional joinery techniques with scribed and milled butt joints providing the ultimate timber effect window. White Woodgrain sculptured finish inside.

THE SUFFOLK COLLECTION

Timber Style Doors

For the ultimate, truly unique entrance door, consider our engineered timber effect range of doors.

Designed to emulate all that you would expect from a timber door, including scribed joints and a range of traditional and contemporary designs.

These doors have an authentic woodgrain effect and can be sprayed in the colour of your choice.

STYLE & ELEGANCE

Whether considering a front or back door your customer should feel confident in the security. There have probably been more security developments on doors than any other products.

Depending on the available opening height a Suffolk door can include as many as 14 locking points all around the door, easily surpassing regulations set by British Standards. Even the hinges have been developed with security in mind providing a further 3 security features.

COMPOSITE DOORS

The SP Trade Frames Composite Door Collection has been designed with meticulous attention to detail, and is finished to the highest standards. The range provides an attractive and effective solution for residential properties and has been developed to provide the highest security and weather performance.

The SP Composite Door Collection will assist you to make the right choice for your property and help you to find a door that enhances your home.

ALUMINIUM WINDOWS

SP Trade Frames offer a traditional aluminium window and the unique Seamless "steel" replica - both fabricated in high quality aluminium. Both are suitable for residential or commercial applications and create a contemporary window design that will enhance any project.

All profiles used have a polyimide thermal break for improved energy efficiency. Available in a range of colours as standard, aluminium windows can also be powder coated in any RAL colour. The "steel" replica range also comes with an extensive range of hardware styles - including an art deco range.

Elegance Hardware Options

Aluminium Windows - Anthracite Grey

Seamless Windows

ALUMINIUM BI-FOLDING DOORS

Available in a range of configurations to suit any application, the SP Trade Frames bi fold door can be folded internally or externally and with the opening at the side - so all sashes slide one way, or alternatively in the middle to give the option of a double door.

The SP Bi fold door's flexibility makes it the perfect choice for projects where large uninterrupted openings are required, with the system providing maximum light and space and unimpeded views.

- Multi point locking system
- 3 * cylinder as standard
- Choice of threshold options
- Thermal break for improved efficiency
- Anthracite Grey, White and Black as standard
- Dual colour options available
- Available in any RAL colour

SEAMLESS BI FOLDING DOORS

The SP Seamless Bi Folding doors offer impressive openings that can unite the inside with the outside and create unique living spaces.

Our Bi Fold door will suit any home - whatever style and finish you require. Available in 2 to 6 pane opening widths and with a multitude of opening options.

Open in or open out and with a choice of colour options and an extensive range of hardware options.

ALUMINIUM SLIDING DOORS

SP Trade Frames sliding patio doors provide the maximum light and afford the most unobstructed views of any system when closed. Additionally with our wide range of systems and options, you can select and tailor a door system to exactly meet your specific requirements. These doors are available as traditional sliders, lift and slide or alternatively double or triple track sliders where all the doors can slide independently of each other.

With a choice of frame size, sliding formats - whether 2, 3 or 4 pane systems, together with a choice of high quality hardware and a wide range of colour options, the slim lines of these elegant doors make them the perfect solution for any home.

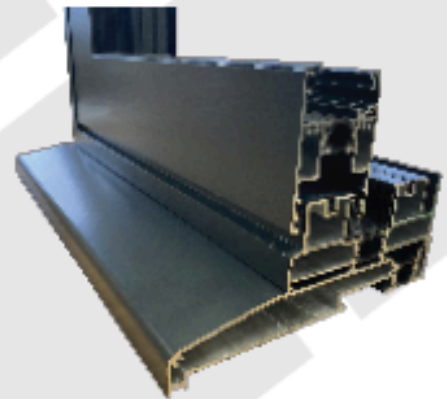

Available in Black, Anthracite Grey or White
Dual colour and special colours available
Frame Depth - 116 DT, 182.5 TT
Max sash height - 2500mm
Slim Intertlock available
Suitable for either 28mm double glazing or
36mm triple glazing

SP SEAMLESS SLIDING DOORS

The SP Seamless sliding door range is inspired by Art Deco and industrial style steel windows and doors, but offers a 21st century solution for this iconic design. Manufactured from precision engineered aluminium, SP Seamless offers all the design and style capabilities but with the added benefit of advanced performance across thermal, security and durability.

For that grand design inspired look, the SP Seamless sliding door will maximise light through its large glazing area and slim sitelines. Ideal for large openings, the smooth opening doors can be tailored to suit your needs, be it 2, 3 or 4 pane options.

ROOFING SOLUTIONS

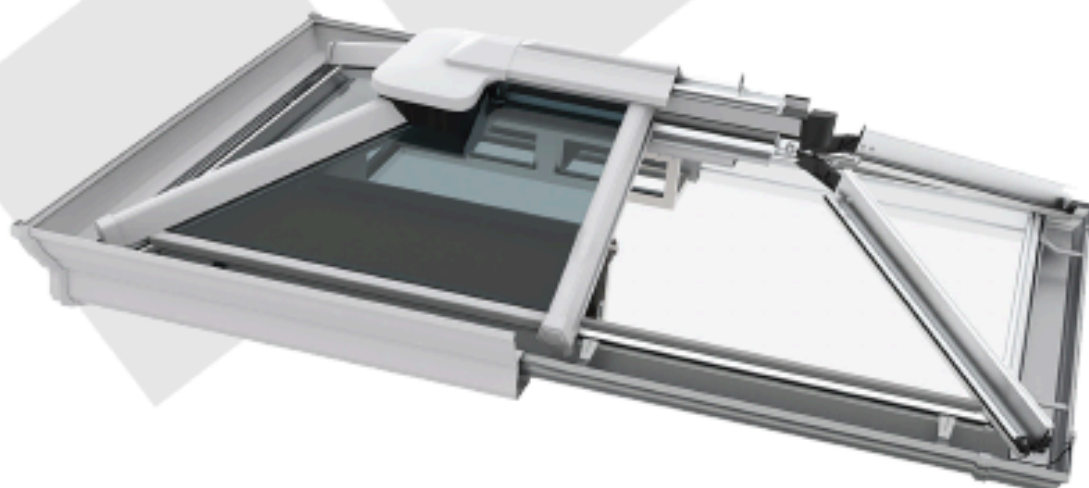

SP Trade Frames supply a complete range of roofing solutions. From a standard glass roof to maximise the natural light in a conservatory, to a modern stylish roof lantern to enhance an extension.

Alternatively we can supply a solid roof to transform any conservatory into a year round living space.

Conservatory Roofs

Key features on the glass roof

- Any shape, any size
- Pitches from 5 to 41 degrees
- Strong bars for greater spans
- 24mm or 32mm glazing
- Any RAL colour available
- Unglazed, performance glass or polycarbonate

ROOF LANTERNS

Made to measure lanterns from SP Trade Frames are perfect for any flat roof extension or orangery and are available in any RAL colour.

- Easy and fast to fit
- Clip on ridge end covers
- pre-fitted thermal clips
- Easy fit clip on capping
- Strong ridge = less bars

SOLID ROOFS

Solid roofs are the perfect way to enhance any conservatory and change it into a year round room for the home.

- U Value of 0.16 as standard
- 4 tile colours and 5 slate colours
- Fully ventilated and thermally efficient
- Building control compliant.
